My name is Evan Milowic and I graduated from **George Mason University** with a Bachelor of Arts in Art & Visual Technology—concentrating in Graphic Design and minoring in Business. My education has led to a strong understanding of art and design in regard to marketing communications.

I have comprehensive experience with design in adherence to established brand guidelines, and can adapt my work to new concepts and company methodology. This, alongside my writing and proofreading skills, puts me in the position to create high-quality work within your company through print and web-based mediums. Lastly, I work well independently, as well as in collaboration with others.

I look forward to meeting and exploring opportunities to support your company.

Sincerely,
Evan Milowic
